

## The Leprechaun and me

Once there was a Leprechaun outside on the grass. I walked over there and when I was over there I snuck up on him and grabbed him. When I caught him he was six inches tall and he was green and he was wearing a green hat and shorts. He said hi and said if you put me down I will give you 1 wish. After that I wished for 900 billion dollars. After I wished for 900 billion dollars I went back outside and put him down. He ran away. When I got 900 billion dollars I went to a car dealership and bought a green Porche and a yacht. That was the most fun time of my life.
